HAYLE TOWN COUNCIL CORPORATE RISK MANAGEMENT SCHEDULE

Adopted at the Resource Committee Meeting held on 25 January 2024.

Definition of Risk Management:

Risk is the threat that an event or action will adversely affect an organisation's ability to achieve its objectives and to successfully execute its strategies. Risk Management is the process by which risks are identified, evaluated and controlled. It is a key element of the framework of governance together with community focus, structures and processes, standards of conduct and service delivery arrangements.

This document has been produced to enable the Town Council to assess the risks that it faces and satisfy that it has taken adequate steps to minimise them. The Council is aware that although some risks can never be eliminated fully, it has in place a strategy that provides a structured, systematic and focussed approach to managing risks which:

- Identifies the key hazards facing the Council;
- Evaluates the risk;
- Identifies the level of risk;
- Evaluates the management and control of the risk and records findings;
- Reviews, assesses and revises procedures if required.

Hayle Town Council Risk Management Policy Statement

Hayle Town Council recognises that, in addition to its statutory duties, there are cogent moral and economic reasons to take all practicable and reasonable measures to safeguard people and the natural and built environments. Whilst it is acknowledged that risk cannot be totally eliminated it is accepted that much can be done to reduce the extent of injury, damage and financial loss. Therefore, Hayle Town Council is committed to identifying, reducing or eliminating risks to both people and the natural and the built environments.

The Council will carry insurance in such amounts and in respect of such perils as will provide protection against significant losses, where insurance is required by law or contract and in other circumstances where risks are insurable and premiums cost effective. The Council will seek to embed effective risk management into its culture, processes and structure to ensure that opportunities are maximised.
